New Meadows

Price:

Free

Kubota B2920 tractor with loader and front mounted snow blower. Purchased tractor in 2017 with 40 hours on it. Tractor currently has 232 hours on it. Purchased new front mounted snow blower B2781B in 2020 for \$7700 used for one season only. Snow blower is controlled by hydraulic joystick that controls the loader and also has an electric ram to trim the chute so you can blow going forward and place the snow easily where you want it. Additional bogie wheels have been added for setting scraper level on rock driveways. I used this machine to remove snow at my cabin in New Meadows and worked great. No longer have a need for this tractor. Asking \$20,500OBO for the package. Please call or text with any questions. 208-631-5550
